Global Finance Names The World's 50 Safest Commercial Banks 2018

NEW YORK, September 21, 2018 — *Global Finance* has named the World's 50 Safest Commercial Banks for 2018 in an exclusive survey to be published in the November 2018 issue. For commercial banks to qualify for this ranking, they must not be majority owned by government or regional authorities.

The top eight banks on the list this year all had identical scores and are presented here ranked in order of total asset size.

North American banks performed very well this year. Canadian banks took seven total positions on the list, including five banks ranking in the top 20. The Toronto-Dominion Bank and Royal Bank of Canada both made big moves to take the top two spots overall. And the United States landed nine banks on the list, more than any other country.

In addition to the World's 50 Safest Commercial Banks, the full report also includes the following: World's 50 Safest Banks, Safest Banks by Country, 50 Safest Banks in Emerging Markets, Safest Islamic Financial Institutions in the GCC, and Safest Banks by Region (Africa, Asia, Australasia, Central & Eastern Europe, Latin America, the Middle East, North America and Western Europe).

Banks were selected through an evaluation of long-term foreign currency ratings—from Moody's, Standard & Poor's and Fitch—of the 500 largest banks worldwide.

"Though growth in recent years has been stable, banks worldwide are facing a stricter regulatory environment. While there is talk of loosening regulations in some countries, we have seen this is slow to come to fruition. Corporate treasurers need to secure partners when seeking a commercial bank. They can use this ranking for guidance on which banks to look to and which financial services they offer," says Joseph Giarraputo, publisher and editorial director of *Global Finance*.
